SUBJECT: Customer Feedback - Bryston Mini t Speakers

January 31st 2013

“Hi James

Got to hear your Bryston mini t's today at my dealer. I only listened to them for about an hour. They are great and gets you into high end for \$2500.

I am going back next week for a better listen. It would be nice to hear them with your stands. The dealer had stands on them but I would like to see them with your stands.

You know what \$2500 typically gets you now?

A narrow floor-stander with cheap drivers and pitiful attempt at trying to get clean undistorted images. They use those narrow floor standers because its cheaper. Sure if they are done right you get pinpoint image but they are never really done right.

The Bryston Mini t speakers are truly great, you ought to be proud.”
