**SUBJECT: Bryston Mini A Speaker Strikes Again!**

May, 2015

**“James**

**I have had my Bryston Mini A’s now for a few weeks and after some break-in time, I am happy to report that the sound is nothing short of incredible.**

**I replaced a pair of (EDIT) which were significantly more expensive and I would have to say that the Mini A’s are a clear step up in performance.**

**The real low bass that comes out of these dinky little boxes is at times just amazing. Dynamics are stellar and imaging as well - I can’t wait to hear the Mini T’s in our showroom!**

**Whoever is responsible for the design of your loudspeakers knows their stuff and has a damn good ear (by my humble estimation).**

**Thanks again for the sweet deal.**

**When I recover from the expense, I might hit you up for a deal on a DAC and eventually an integrated amp.**

**Consider the Kool Aid fully drank....”**
