

# BRYSTON

A Lifetime of Music

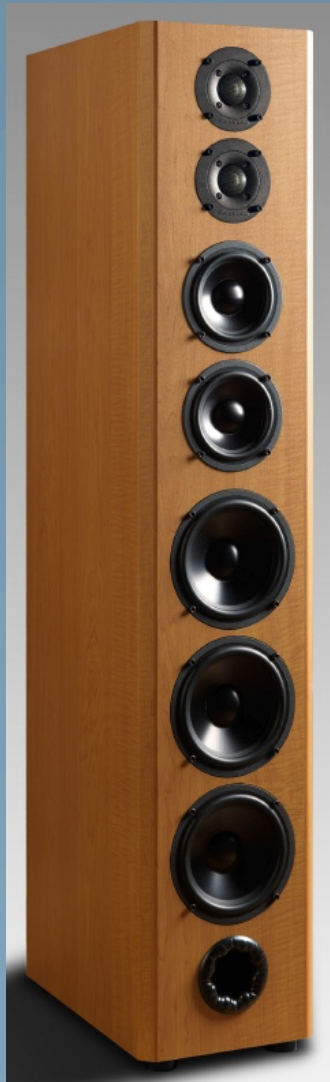

**MEMO: To All Bryston Customers**

**SUBJECT: Model A1 – Professional Feedback**

**January 2016**

Hello James.

I've been holding off sending in my review of my Model A1's as I've been trying just about every genre of music and sounds to put them through their paces, if you will. Being a professional audio engineer I demand perfection from my gear.

The Model A1's have performed wonderfully! They are being driven by a 4B and have been performing as well as they look. Pure jewellery! Bravo!!!

I have sent them sound sources that most people would never have occasion to and I must say that the Model A1's do what they do so well and with effortless perfection.

I have yet to hear any sound source that needed any kind of "help" via EQ or otherwise.

I have shown them off to anyone who will listen. Everyone agrees that they are the best sounding and looking speakers that they've ever heard or seen.

I say; "Bragging rights? BRYSTON!"

Sincerely,

Kenneth B Veitch
