## MEMO: To All Bryston Customers SUBJECT: Bryston – Customer Turntable Report

October 2016

Dear James,

BRYSTON BLP-1 WITH BTP-1

I was not supposed to lift anything at all heavy today, but I could not properly discipline myself, and I'm trying to put the BLP-1 together. It is packaged so very beautifully that it is almost distressing to have to take the various parts out of the box and remove their shrink-wraps.

I'm assuming also, since no mat is supplied, that, like the still new TT I'm replacing with the BLP-1, that there is no mat: LPs are to be played on the naked platter. Kindly confirm or correct this assumption as well.

This is a solid-looking, solid-feeling unit. Its appearance, like everything else I have from Bryston, is at once simple and elegant. Everything about it gives off an air of assurance. I would mention in particular the quality action of the dust cover: a very minor item, perhaps, but on my previous TT that I'm replacing the dust cover is detachable (which some folks may regard as a convenience) but when attached has a very stiff action and somewhat clumsy appearance.

All best,  
Richard Freed
