WOLFSONG AUDIO

James,

The Mini Ts and As are a hit. I am stunned at the Mini As' dynamic expression. A real 3 way in a small form and cost factor that has truly coherent sound. No small feat. Lots of smaller speakers out there that

just sound like highs, mids, and lows with no expression or life.

The Mini Ts are a lesson in expression as well. They LOVE the 4B3. I LOVE the BDA 3. Wolfosng is just getting up to speed on the real sound of high res. Gary Dayton has been a big help with my occasional computer audio illiteracy.

sound got I would be very, very happy and so would Wolfsong's customers. Sine we have to wait for our 28B3s and Model T Signatures for now I will reserve final judgement. If the current rig is any indication of what is to come I see a lot of long nights ahead.

If the 4B3 playing the Mini T was as good as the Bryson

Thank you again for Bryston's faith in Wolfsong Audio. We look forward to a long and rewarding relationship.
