MEMO: To All Bryston Customers

SUBJECT: A Remarkable Product - the 14B

May, 2017

Hi Folks,

"I have recently placed a deposit on a BP26 Preamp plus the MPS-2 power supply.

I should add that I am buying the BP 26 because I recently bought a 14B SST2. I was astounded by the difference the 14B made.

I had considered my previous amp to be very good, but the 14B completely rewrote every aspect of what I could hear - from low to high, in a formidable, natural and open sound-stage.

I can't think of the correct word to describe the unobtrusive neutrality. How a component can manage to deliver such effortless power and precision, while appearing to not exist, is beyond me.

Thank you for producing such a remarkable product.

Uncharacteristically for me, you've created an ardent advocate in Western Australia, several thousand kilometres from the nearest Bryston dealer."

**Regards and Thanks,
David**
