

BRYSTON

A Lifetime of Music

MEMO: To All Bryston Customers
SUBJECT: Bryston SP3 USB Upgrade

May, 2017

Hi Folks,

We are pleased to announce a “Factory” USB upgrade for our Bryston SP-3 Surround Processor.

The current USB module supports STEREO PCM 48K/16BIT resolution.

The new USB module will support PCM 192/24 as well as DSD Native/64/128.

There are a few options depending on which main board your SP3 has and your requirement for PCM or DSD digital playback.

1. SP-3 with version 5 main circuit board can upgrade to STEREO plus SURROUND MODES PCM 192/24 plus DSD for \$600
2. SP-3 with version 1 - 2 - 3 or 4 main board can upgrade to STEREO plus SURROUND MODES PCM 192/24 as well as DSD for \$2800. A optional 4K (2.2 on input 8) HDMI board is also available for an additional \$1000.

NOTE: These updates ‘MUST’ be performed at the Factory.
